

**Arvand model**

Cross and straight Cutting is a usefull machine that is able to straight and then cross Cutting.

You can increas thickness to 200 mm in heavy duty.

Ac220v 50hz	voltage
Stepper Motor	mottors
None	Feed back
2000 mm/min	Max speed of device
1mm	Device error in ever axis
70 mm	Max thickness of cutting
100 mm	Min distance between two torch
2 Lamp	Lighting

**Technical info**

<b>Voltage</b>	AC220 v 50hz
<b>Motors</b>	Stepper motor
<b>Feedback</b>	None
<b>Max speed of device</b>	1000 mm/min
<b>Max error axes</b>	1 mm
<b>Thickness</b>	70 mm
<b>Min Cutting Head distance</b>	130 mm

**technical info**

Details	Specification
Cutting area	2*6m
cutting head	6
Min distance between two torch	11cm
Automatically setup distance height	13cm
electrical setup distance height	17cm
mottor	Step motor
gearbox	Timeing belt
Min speed	100 mm/min
Max speed	1000 mm/min
Z axis mottor	DC 24 V
